

Make Skybrary Part of Your Rally to Read Initiative

Skybrary®, Reading Is Fundamental's children's reading app, is a great way to help students reach their Rally to Read goal of reading 100 books while exploring each month's featured theme.

With free access to 100 eBooks and 50 engaging videos, Skybrary helps extend learning beyond the classroom and supports reading at home.

Read More Books Toward the 100-Book Goal

Students can use Skybrary during independent reading time, literacy centers, after-school programs, or at home to discover additional books connected to Rally to Read themes and interests.

Every book read on Skybrary can count toward a student's goal of reading 100 books as part of the Rally to Read challenge to read 100 books by the end of National Reading Month.

Extend Monthly Theme Learning

Each Rally to Read theme includes recommended Skybrary books and a video that deepen understanding and spark curiosity.

Teachers can:

- Add theme-related Skybrary books to classroom read-alouds.
- Encourage students to explore additional books independently.
- Use videos to introduce, reinforce, or extend theme concepts.
- Create opportunities for discussion and writing, inspired by books and videos.

Strengthen Home-to-School Connections

Each theme packet includes a take-home activity with a recommended Skybrary video that families can access for free, helping children make even more connections to the monthly theme.

Getting Started with Skybrary
